Amadeus Interface Record for Back Office	88

Amadeus Negotiated Space Certification	89
Amadeus Negotiated Space Certification (Virtual)	90
Amadeus Office Management	91
Amadeus Office Management and Security Management Certification for Altéa Airlines	92
Amadeus Office Management and Security Management Certification for Altéa Airlines (Virtual)	93
Amadeus Office Management Certification for Airlines	94
Amadeus Office Management Certification for Airlines (Virtual)	95
Amadeus Passenger Name Manager (Virtual)	96
Amadeus Process Customer Value for Customer Management	97
Amadeus Process Customer Value for Customer Management (Virtual)	98
Amadeus Process Customer Value for Inventory (Virtual)	99
Amadeus Queues (Virtual)	100
Amadeus Reservation and Ticketing Cryptic Certification	101
Amadeus Reservation and Ticketing Help Desk for Airlines	102
Amadeus Reservation and Ticketing Help Desk for Airlines (Virtual)	103
Amadeus Reservation and Ticketing Web Advanced - EMDs	104
Amadeus Reservation and Ticketing Web Advanced - EMDs (Virtual)	105
Amadeus Reservation and Ticketing Web Advanced - Manual reissues	106
Amadeus Reservation and Ticketing Web Advanced - Manual reissues (Virtual)	107
Amadeus Reservation and Ticketing Web Certification for New Users	108

Amadeus Reservation and Ticketing Web Certification for New Users (Virtual)	109
Amadeus Reservation and Ticketing Web Certification-Conversion from Amadeus Cryptic to Graphic	110
Amadeus Revenue Accounting Certification	111
Amadeus Revenue Accounting Certification (Virtual)	112
Amadeus Revenue Accounting Rules Filing	113
Amadeus Revenue Integrity	114
Amadeus Sales Auditing Certification and optional modules	115
Amadeus Sales Auditing Certification and optional modules (Virtual)	116
Amadeus Security Management	117
Amadeus Security Management Certification for Altéa Airlines	118
Amadeus Security Management Certification for Altéa Airlines (Virtual)	119
Amadeus Security Management for Airports and Ground Handlers	120
Amadeus Security Management for Ground Handlers (Virtual)	121
Amadeus Smart Flows	122
Amadeus Smart Flows (Virtual)	123
Electronic Miscellaneous Documents	124
Group bookings in Altéa Reservation Desktop Web (Virtual)	125
Inconsistent Journey Management	126
Local Security Management	127
Origin and Destination Module using Bid Price Vectors	128

Seatmap Management	129
Ticketing Configuration Manager	130
Ticketing in Amadeus (Cryptic)	131
Training techniques for airline trainers	132

Airline Retailing Platform and Printing Format Association for Ground Handlers (Virtual)

This course gives an overview on how to set up predefined print formats for airport ground handlers.

On this course you will learn:

- _ How to add a predefined format to your own ground handling organisation.
- _ How to identify predefined formats from Altéa carriers and add them to your ground handling organisation.

This course covers the following topics:

- _ Adding a format association to your own ground handling organisation.
- _ Identifying specific formats and associate them to Altéa carriers.
- _ Retrieving and modifying business rules for format association.
- _ Reading the history.

Certification:
No

Duration:
0.5 day

Language:
English

Level:
Fundamentals

Pre-requisite:
Yes

Pework:
No

Is this the course for you?

This course is for:
Ground Handlers

In particular, those working in:
Administrators

Things you need for this course

Pre-requisite:

Experience in airport ground handling.

This course helps you use

- _ Altéa Document Management

How the course is organised

- _ 1 session of 1.5 hour virtual training.

What equipment do you need?

- _ High-speed internet connection (> 25 Mbps)
- _ Access to Zoom or MS Teams via internet (not mobile)
- _ Headsets with microphones

The last few details...

- _ To schedule a customised session, please contact: learning@amadeus.com
- _ Last update: April 2022

Altéa Administration Departure Plan Template

As an administrator, discover how Amadeus helps you to manage your business operation activities and customise them according to your markets.

On this course, you will learn:

- _ What is Plan Template Management?

Through a set of interactive e-Learning lessons, learn how Altéa Administration organises markets using a Template Tree, identifies operation activities for both Flight Management and Customer Management, and assign activities to templates to set up the departure plan of a flight leg and for successful flight creation.

Certification:
No

Duration:
20 minutes

Language:
English

Level:
Awareness

Pre-requisite:
No

Pework:
No

Is this the course for you?

This course is for:

Airlines

In particular, those working in:

Administrators, Operations Managers, Trainers

This course helps you use

- _ Altéa Administration
- _ Altéa Departure Control - Customer Management (CM)
- _ Altéa Departure Control - Flight Management (FM)

How the course is organised

There is one mandatory e-Learning lesson. After completion, there is an instructor-led session available to request an enrolment. Finally, there are user guides available for download.

This course is also available in

English

What equipment do you need?

- _ A computer, laptop or tablette.
- _ A high-speed internet connection (> 1MB).
- _ The Google Chrome browser or alternatively the Microsoft Edge browser.
- _ An Amadeus login (LSS), organization ID (IATA code) and password.

Altéa Administration Flight Management Business Rules

As an administrator, examine how Amadeus helps you to manage set of business rules to automate operational processes so that manual intervention is not needed to optimise Altéa Departure Control - Flight Management (FM) to align with your business goals.

On this course, you will learn:

- _ How to use markets to create Business Rules
- _ What is Flight Group Management?
- _ What are Rule Criteria Weights?
- _ What are Business Rules for Flight Management?
- _ What are Flight Create Business Rules?
- _ What are Active Flight Business Rules?
- _ What is Departure Plan Simulation?

Through a set of interactive e-Learning lessons, learn how to use markets and flight groups to create business rules, validate business rules for successful flight creation and troubleshoot business rule errors using Altéa Administration.

Certification:
No

Duration:
1 hour

Language:
English

Level:
Awareness

Pre-requisite:
No

Pework:
No

Is this the course for you?

This course is for:

Airlines

In particular, those working in:

Administrators, Operations Managers, Trainers

This course helps you use

- _ Altéa Administration
- _ Altéa Departure Control - Flight Management (FM)

How the course is organised

There are seven mandatory e-Learning lessons. After completion, there is an instructor-led session available to request an enrolment. Finally, there are user guides available for download.

This course is also available in

English

What equipment do you need?

- _ A computer, laptop or tablette.
- _ A high-speed internet connection (> 1MB).
- _ The Google Chrome browser or alternatively the Microsoft Edge browser.
- _ An Amadeus login (LSS), organization ID (IATA code) and password.

Altéa Departure Control - Customer Management

As an agent, learn about automating key processes from customer acceptance to flight departure that streamlines your activities for the best customer service.

In this e-Learning you will learn:

- _ How to get started
- _ What is the Altéa suite?
- _ How to complete customer acceptance tasks
- _ How to complete customer baggage and seating tasks
- _ How to complete customer assistance and regrade tasks
- _ How to complete boarding tasks
- _ How to complete disruption tasks

Using a set of simulations, learn how to accept customers, manage special service requests (SSR), modify flight itineraries, transfer customers and other tasks with Altéa Departure Control - Customer Management (CM). Each lesson is presented in a sequence for you to complete, ending with a test requiring a passing score of 100%.

Certification:
No

Duration:
8 hours + 50 minutes

Language:
English

Level:
Awareness

Pre-requisite:
No

Pework:
No

Is this the course for you?

This course is for:

- _ Airline Program Managers.
- _ Departure Control System Project Members.
- _ Airline trainers.
- _ Airline check-in and gate agents.

This course helps you use

- _ Altéa Departure Control - Customer Management (CM)

How the course is organised

First, there are forty-nine mandatory e-Learning lessons. After completion, there is an online test. After passing the test, there is an instructor-led session available to request enrolment. Finally, there are user guides available for download.

This course is also available in

English

What equipment do you need?

- _ A computer, laptop or tablet.
- _ A high-speed internet connection (< 1MB).
- _ The Google Chrome browser or alternatively the Microsoft Internet Explorer browser.
- _ An Amadeus login (LSS), organization ID (IATA code) and password.

The last few details...

- _ Last update: July 2021

Altéa Departure Control - Flight Management

As a Load Controller, discover how Amadeus helps you to manage passengers and baggage, cargo, and fuel with precision, to boost productivity in your load control operations.

On this course, you will learn:

- _ How Altéa Flight Management interacts with other products
- _ How to navigate Flight Management
- _ How to add flight operating data
- _ How to navigate the Flight Information screen
- _ How to read messages, statuses and the Centre of Gravity graph
- _ How to read the Joining Passengers display and modify flight details
- _ How to identify an aircraft's weight, traffic load and forecast zero fuel weight
- _ How to build a Dry Operating Weight and Index
- _ How to manage deadload for a flight
- _ How to manage the load distribution
- _ How to manage fuel for a flight
- _ How to manage passenger and baggage figures
- _ How to update load and ramp clear
- _ How to depart a flight

Through a set of interactive e-Learning lessons, learn how Altéa Flight Management (FM) optimises load planning for baggage and cargo, manages fuel distribution, calculates the aircraft centre of gravity and issues documents and messages for flight departure.

Certification:
No

Duration:
2 hours + 30 minutes

Language:
English

Level:
Awareness

Pre-requisite:
No

Pework:
No

Is this the course for you?

This course is for:

Airlines, Ground Handlers

In particular, those working in:

Administrators, Air Traffic Control (ATC), Baggage Handlers, Business & Projects Managers, Help Desk & Support Agents, Load Controllers, Operations Managers, Trainers

This course helps you use

- _ Altéa Departure Control - Flight Management (FM)

This course is also available in
English

What equipment do you need?

- _ A computer, laptop or tablet.
- _ A high-speed internet connection (> 1MB).
- _ The Google Chrome browser or alternatively the Microsoft Edge browser.
- _ An Amadeus login (LSS), organization ID (IATA code) and password

Altéa Departure Control - Operational Flight Updates

As a ground handler, learn how to manage flight schedules for another airline when close to the departure date.

You will learn:

- _ How to create a flight date.
- _ How to create a flight period.
- _ How to update a flight date
- _ How to update a blockspace size.

Through a set of interactive videos learn how to manage flight dates, flight periods and block space using Altéa Departure Control - Operational Flight Updates (OFU).

Certification:
No

Duration:
40 minutes

Language:
English

Level:
Awareness

Pre-requisite:
Yes

Pework:
No

Is this the course for you?

This course is for:

- _ Staff performing ground handling activities.

Things you need for this course

Pre-requisite:

- _ Basic knowledge of Altéa DC-CM or Altéa DC-FM.

This course helps you use

- _ Altéa Departure Control - Customer Management (CM)
- _ Altéa Departure Control - Flight Management (FM)

How the course is organised

There are four interactive lessons with a total duration of 40 minutes.

This course is also available in

English

What equipment do you need?

- _ A computer, laptop or tablet.
- _ A high-speed internet connection (< 1MB).
- _ The Google Chrome browser or alternatively the Microsoft Edge browser.
- _ An Amadeus login (LSS), organisation ID (IATA or Ground Handler code) and password.

The last few details...

- _ Please note that access to this course is restricted to Amadeus customers.

Altéa Inventory

Through a set of interactive e-Learning lessons, learn how Altéa Inventory (INV) automates schedules and re-accommodations, manages seating, handles special service requests and automates waitlist clearance.

On this course, you will learn:

- _ How to navigate Altéa Inventory
- _ How to install and log in to Altéa Inventory
- _ How Altéa Inventory works
- _ How Altéa Inventory works with other systems
- _ How to manage user access to Altéa Inventory
- _ How to work with Messenger
- _ What are Business Rules and markets?
- _ What are flight groups?
- _ How to get started with seating
- _ How to handle flight schedules
- _ How to handle re-accommodations
- _ How to read the flight date inventory panel
- _ How Altéa Inventory interacts with other products
- _ How the Altéa suite sends passenger information to a departure control system
- _ How the Altéa suite receives passenger information from a departure control system after flight departure
- _ How the Altéa suite sends passenger assistance lists to another airport
- _ What is Schedule Loader?
- _ How to load new flight schedules
- _ How to update flight schedules
- _ How to manage codeshare flights
- _ What is Automatic Waitlist Clearance?
- _ How to manage Automatic SSR Handling
- _ How to set up automatic SSR handling replies
- _ How to set up automatic SSR handling replies with a quota restriction
- _ How to set up automatic SSR handling replies belonging to a SSR family
- _ How to set up automatic SSR handling replies without a quota restriction
- _ What are Carrier Preferred Display service flows?
- _ How to get started with Revenue Integrity Desktop
- _ How to use the Revenue Integrity search engine
- _ How to use the rule editor to manage business rules
- _ How Amadeus Time Limits processes a PNR
- _ How to navigate Amadeus Time Limits screens
- _ How to create Amadeus Time Limits business rules
- _ What are the Amadeus Time Limits configurations?
- _ How to read Amadeus Time Limits logs
- _ How Group Time Limits processes a group PNR
- _ How to navigate Group Time Limits and set multiple time limits

This course covers the following topics:

- _ Getting started with Altéa Inventory
- _ Creating Business Rules
- _ Exchanging information within Altéa
- _ Using Schedule Loader
- _ Discovering other Altéa Inventory features
- _ Managing Automatic Special Service Requests
- _ Using Carrier Preferred Display
- _ Using Amadeus Revenue Integrity

Certification:
No

Duration:
6 hours

Language:
English

Level:
Awareness

Pre-requisite:
No

Prework:
No

Is this the course for you?

This course is for:

Altéa Reservation and Ticketing

As a reservation agent, learn how to make reservations in the Amadeus Global Distribution System (GDS) using cryptic commands.

You will learn:

- _ How to get started
- _ What is Amadeus Air?
- _ What are PNR Mandatory elements?
- _ What are PNR Optional elements?
- _ How to modify a PNR
- _ How to work with itineraries and invoices
- _ How to price and use fares
- _ How to use ticketing
- _ How to use Amadeus Queues

Through a set of interactive e-Learning videos learn what is the Amadeus GDS and how to create and modify the elements of a Passenger Name Records (PNR) in order to issue a ticket using Altéa Reservation (Cryptic).

Certification:
No

Duration:
3 hours

Language:
English

Level:
Fundamentals

Pre-requisite:
No

Pework:
No

Is this the course for you?

This course is for:

Airlines

In particular, those working in:

Administrators, Fare Filing Agents, Help Desk & Support Agents, Inventory / Revenue Managers, Reservation Agents, Ticketing Agents, Trainers

This course helps you use

- _ Amadeus Reservation Desktop Essential
- _ Amadeus Reservation Desktop Web (ARDW)

How the course is organised

There are thirty mandatory e-Learning lessons with four supplementary lessons. Also, there are user guides available for download.

This course is also available in

English

What equipment do you need?

- _ A computer, laptop or tablet.
- _ A high-speed internet connection (> 1MB).
- _ The Google Chrome browser or alternatively the Microsoft Internet Explorer browser.
- _ An Amadeus login (LSS), organization ID (IATA code) and password.

Altéa Reservation Desktop Web

As a reservation agent, process efficiently and swiftly passenger requests, in any part of their journey.

You will learn:

- _ What is ARD Web
- _ How to navigate ARD Web
- _ How to display a flight
- _ How to create a PNR with mandatory elements
- _ How to copy a PNR
- _ How to create an ancillary service and issue the EMD
- _ How to reissue an e-ticket
- _ How to reissue an EMD
- _ How to use an EMD to partially cover the price of a new e-ticket
- _ How to refund an e-ticket
- _ How to refund an EMD
- _ How to display Sales Reports

Through a set of interactive e-Learning, discover what Altéa Reservation Desktop Web (ARD Web) is and how to display flights, create a Passenger Name Record (PNR) and sell ancillary services, search for fares and price flights, issue and exchange documents using ARD Web.

Certification:
No

Duration:
3 hours + 15 minutes

Language:
English

Level:
Awareness

Pre-requisite:
No

Pework:
No

Is this the course for you?

This course is for:

Airlines

In particular, those working in:

Administrators, Fare Filing Agents, Help Desk & Support Agents, Reservation Agents, Ticketing Agents, Trainers

This course helps you use

- _ Amadeus Reservation Desktop Web (ARDW)

How the course is organised

First, there are fourteen mandatory e-Learning lessons. After completion, there is an instructor-led session available for request enrolment. Finally, there are user guides available for download.

This course is also available in

English

What equipment do you need?

- _ A computer, laptop or tablet.
- _ A high-speed internet connection (< 1MB).
- _ The Google Chrome browser or alternatively the Microsoft Edge browser.
- _ An Amadeus login (LSS), organization ID (IATA code) and password.

Altéa Revenue Availability With Active Valuation

As an agent, learn about boosting your sales and 'bookability' with real-time Origin and Destination availability, computing with the whole PNR context, and protecting your critical O&D revenues with married segment control functionality.

On this course, you will learn:

- _ What is revenue management?
- _ What Amadeus products are involved in the revenue optimisation process?
- _ What is revenue optimisation?
- _ How to distribute seat availability
- _ What is the difference between basic and advanced inventory controls?
- _ What is revenue availability?
- _ What is active valuation?
- _ What is a yield?
- _ What is a bid price?
- _ What is married segment control?

Through a set of videos learn how to calculate revenue availability, retrieve and adjust yield in Altéa Inventory (INV), identify different types of bid price and how yield works with bid price using Altéa Revenue Availability With Active Valuation (RAAV).

Certification:
No

Duration:
30 minutes

Language:
English

Level:
Awareness

Pre-requisite:
No

Pework:
No

Is this the course for you?

This course is for:

Airlines

In particular, those working in:

Inventory / Revenue Managers, Trainers

This course helps you use

- _ Altéa Revenue Availability With Active Valuation (RAAV)

How the course is organised

There are ten mandatory e-learning lessons. After completion, there are user guides available for download.

This course is also available in

English

What equipment do you need?

- _ A computer, laptop or tablette.
- _ A high-speed internet connection (> 1MB).
- _ The Google Chrome browser or alternatively the Microsoft Edge browser.
- _ An Amadeus login (LSS), organization ID (IATA code) and password.

Amadeus Altéa DC - CM Advanced

This course provides hands-on exercises focusing on practical scenarios involving customer handling activities in the operational window.

On this course, you will learn how to:

- _ Describe the relationship between Altéa DC-CM and Altéa Administration.
- _ Interpret the business rules affecting customer handling activities including acceptance, seating, baggage, boarding and post departure process.
- _ Evaluate how the business rule relates to the departure plan activities.

This course covers the topic of analysis of the components and elements that influence specific customer handling scenarios in the following areas:

- _ Customer acceptance
- _ Printing Documentation
- _ Baggage Handling
- _ Flight Information
- _ Seating Management
- _ Post departure procedure

Certification:
No

Duration:
2 days

Language:
English

Level:
Advanced

Pre-requisite:
Yes

Pework:
No

Is this the course for you?

This course is for:

- _ DCS system administrators
- _ DCS Trainers
- _ Help Desk & Support Agents

Things you need for this course

Pre-requisite:

Have successfully passed ALL the courses below:

- _ [Amadeus Altéa DC-CM Certification](#)
- _ [Amadeus Altéa DC-CM Business Rules](#)
- _ [Amadeus Altéa DC-CM Departure Plan Template & Departure Control](#)

Also be familiar with Altéa DC-CM and customer handling activities at an airport.

This course helps you use

- _ Altéa Administration
- _ Altéa Departure Control - Customer Management (CM)

Related courses

- _ [Amadeus Altéa DC-CM Certification \[Classroom\]](#)

Amadeus Altéa DC Aircraft Engineering and Business Database

The Altéa Departure Control Aircraft Engineering and Business Database course describes the process of constructing and maintaining carrier and aircraft weight & balance engineering data using the Database Maintenance Tool (DBM).

On this course, you will learn about the:

- _ Development of appropriate aircraft engineering data.
- _ Process of entering such data into the database using the DBM.
- _ Engineering/mathematical functions within Flight Management (FM) that are essential to the development of aircraft database configurations.
- _ Data-building philosophy.
- _ Testing and preimplementation acceptance processes including any regulatory considerations.

This course covers the following topics:

- _ General engineering parameters
- _ Hold Data & ULD Configurations
- _ General limitations
- _ CG limits & lateral imbalance
- _ Stabiliser trim
- _ Service weight adjustments and potable water
- _ Fuel tanks and distributions
- _ Cabin layouts
- _ Aircraft business rules
- _ Integration of DBM data with other Altéa applications
- _ Flight creation process
- _ Autoload
- _ General load control business data

Certification:

Yes - pass mark: 75%

Duration:

4 days

Language:

English

Level:

Advanced

Pre-requisite:

Yes

Pework:

No

Is this the course for you?

This course is for:

- _ Airlines in PSS migration.
- _ Airline staff responsible for the development of engineering limitations data
- _ Airline staff responsible for importing and maintenance of carrier and aircraft data used for weight and balance functions of Flight Management.

Things you need for this course

Pre-requisite:

- _ Be involved in the maintenance of carrier and aircraft engineering records.
- _ Have a good understanding of aircraft weight and balance limitations and their utilisation within the ramp, load control and flight operations environments.
- _ Be familiar with IATA AHM565 documentation.
- _ Have successfully passed one of these courses:

[Altea Departure Control - Flight Management awareness](#)

[e-learning](#) (3 hours)

Altéa DC-FM Certification

This course helps you use

- _ Altéa Departure Control - Flight Management (FM)

Related courses

Amadeus Altéa DC Aircraft Engineering and Business Database General Refresher (virtual)

This one-day training is a refresher of the initial ?Amadeus Altéa DC Aircraft Engineering and Business Data? DBM training. The content is a pre-defined high-level training, limited to some of the more complex concepts of the initial training that may be difficult to follow by referencing the user guide only.

On this course, you will learn about the:

- _ Development of appropriate aircraft engineering data (review).
- _ Process of entering such data into the database using the DBM (review).
- _ Engineering/mathematical functions within Flight Management (FM) that are essential to the development of aircraft database configurations (review).
- _ Data-building philosophy (review).
- _ Testing and preimplementation acceptance processes including any regulatory considerations (review).

This course covers the following topics:

- _ Overview of general data concepts
- _ Overview of cargo hold data and processing
- _ Overview of fuel data and processing
- _ Overview of Center of Gravity data and processing
- _ Overview of flight creation

Certification:
No

Duration:
1 day

Language:
English

Level:
Advanced

Pre-requisite:
Yes

Prework:
No

Is this the course for you?

This course is for:

- _ Airlines hosted on Altéa Flight Management.
- _ Airline staff responsible for the development of engineering limitations data.
- _ Airline staff responsible for importing and maintenance of carrier and aircraft data used for weight and balance functions of Flight Management.

Things you need for this course

Pre-requisite:

- _ Have attended the initial Amadeus Altéa DC Aircraft Engineering and Business Database course (4 days).

This course helps you use

- _ Altéa Departure Control - Flight Management (FM)

Related courses

Amadeus Altéa DC Aircraft Engineering and Business Database Modular Refresher

This one-day training is a refresher of the initial ?Amadeus Altéa DC Aircraft Engineering and Business Data? DBM training. The content is tailored to the needs of the customer by offering pre-defined modules for the customer to select from. This course is appropriate for customers looking for more detailed refresher training on specific areas of data configuration.

On this course, you will learn about the:

- _ Development of appropriate aircraft engineering data (review).
- _ Process of entering such data into the database using the DBM (review).
- _ Engineering/mathematical functions within Flight Management (FM) that are essential to the development of aircraft database configurations (review).
- _ Data-building philosophy (review).
- _ Testing and preimplementation acceptance processes including any regulatory considerations (review).

The customer builds its own agenda, selecting up to 4 of the following topics:

- _ General Data Concepts: Effective Dates, Data Organization, Data Structure, DBM navigation
- _ Hold Data: basic DBM data configuration of BPPs and ULD Groups, full width records and locks
- _ FM processing of Hold Data: FM processing of cargo hold ULD group data during the approve distribution process
- _ Fuel Data: basic fuel tank and distribution configurations and FM processing
- _ Centre of Gravity Envelopes: basic DBM configuration and FM processing
- _ Flight Create and Flight Create Business Rules, DPS
- _ Open Questions

Certification:
No

Duration:
1 day

Amadeus Altéa DC-CM Business Rules

This course describes business rules that define the behaviour of Amadeus Altéa Departure Control Customer Management.

On this course you will learn how to:

- _ Create and maintain markets within Market Management.
- _ Create and maintain Flight Groups within the Altéa Administration user interface.
- _ Identify the impact business rules have on the behaviour of Customer Management.

This course covers the following topics:

- _ Market management
- _ Flight groups
- _ Understanding the weighting concept
- _ Advance passenger information service rules
- _ Customer acceptance rules
- _ Baggage acceptance rules
- _ Boarding pass and baggage tag printing rules
- _ Transfer rules
- _ Onload / Regrade rules
- _ Flight information rules

Amadeus Altéa DC-FM Business Rules & Departure Plan Simulation

This course describes how business rules can modify Amadeus Altéa Departure Control - Flight Management's behaviour and align it with your business goals. Generally, the business rules are applied either at flight creation or at different stages of the flight life cycle including the operational window. These two phases are called Flight Create business rules and Active Flight business rules respectively.

In this course you will learn how to:

- _ Create and maintain markets within Market Management.
- _ Create and maintain flight group keywords within Flight Group Management.
- _ Work with the weighting concept.
- _ Create and verify mandatory business rules.
- _ Identify the impact that business rules have on the behaviour of Flight Management.

This course covers the following topics:

- _ Market Management.
- _ Flight Group Management.
- _ Rule Criteria Weights.
- _ Rule Creation.
- _ Rule Management.
- _ Flight Create Business Rules.
- _ Active Flight Business Rules.
- _ Departure Plan Simulation.

This course describes how to automate Altéa Departure Control by programming activities in Flight Management at predetermined times before and after the departure of an aircraft.

In this course you will learn how to:

- _ Access and navigate Altéa Administration.
- _ Work with the Plan Template Management application to create and maintain template levels and activities.
- _ Delete and modify a template containing a specific set of activities.
- _ Search, view and update the Departure Plan for a specific flight in Flight Management.

This course covers the following topics:

- _ Managing the Departure Plan Template.
- _ Creating, modifying and deleting templates.
- _ Assessing the impact of the Departure Plan Template in Flight Management.

Certification:
Yes - pass mark: 85%

Duration:
1 day

Language:
English

Level:
Certification

Pre-requisite:
Yes

Pework:
Yes

Is this the course for you?

This course is for:

- _ Airlines in PSS migration.
- _ Airline staff responsible for setting up Flight Management departure plan activities.
- _ Airline system administrators.

Things you need for this course

Pre-requisite:

Have successfully passed:

- _ Amadeus Altéa DC-FM Certification.

Or at least familiar with Amadeus Altéa Flight Management as well as weight and balance activities at an airport.

Pework:

To ensure that you are familiar with Amadeus products before attending the training, we recommend to complete the following e-Learning:

- _ [Altéa Administration Departure Plan Template awareness](#) (20 minutes)
- _ [Altéa Departure Control - Flight Management awareness](#) (2.5 hours)

This course helps you use

- _ Altéa Administration
- _ Altéa Departure Control - Flight Management (FM)

Related courses

- _ [Amadeus Altéa DC-FM Certification \(Virtual\) \[Virtual\]](#)

How the course is organised

- _ 1 day of virtual training

What equipment do you need?

- _ High-speed internet connection (> 25 Mbps)
- _ Access to Zoom or MS Teams via internet (not mobile)
- _ Headsets with microphones

Amadeus Altéa DC-FM Wide Body Freighter Functionality (Cargo)

This course describes in detail the load control process for Wide Body Freighter Functionality in Amadeus Altéa Departure Control - Flight Management.

On this course, you will learn to:

- _ Navigate within the Altéa DC-FM GUI
- _ Build ULDs using the full Wide Body Main Deck Loading functionality.
- _ Manually distribute the Load on the Main and Lower Decks.
- _ Accept Passengers (Grooms/Couriers/Attendants)
- _ Produce relevant documentation, Loadsheet, LIR, VGLIR, LDM, CPM and UCM

This course covers the following topics:

- _ Freighter functionality in Altéa DC-FM, Principally Deadload Screen, Deadload details Panel and Load Distribution Screen
- _ Accept Passengers Groom/Courier/Attendant
- _ Create ULD - Pallet
- _ DGSL
- _ Temperature and Ventilation
- _ Documentation
- _ Messages
- _ Ground Stability

Certification:

Yes - pass mark: 85%

Duration:

2 days

Language:

English

Level:

Advanced

Pre-requisite:

Yes

Pework:

Yes

Is this the course for you?

This course is for:

- _ Airline staff responsible for designing and delivering end user training and implementation of freighter functionalities in Amadeus Altéa DC-Flight Management.

Things you need for this course

Pre-requisite:

You need to be familiar with:

- _ The Altéa DC-FM application.
- _ Flight Management Departure Plan activities.
- _ Load control activities.
- _ Airline business procedures.

Pework:

- _ To ensure that you are familiar with our products before attending the training, we recommend you complete the following e-learning (3 hours):

[Altea Departure Control - Flight Management awareness](#)

This course helps you use

- _ Altéa Departure Control - Flight Management (FM)

Related courses

- _ [Amadeus Altéa DC-FM Certification \[Classroom\]](#)

How the course is organised

- _ 2 days of classroom training for airline agents who have passed the Altéa DC-FM certification
- _ or 5 days of classroom training including an Altéa DC-FM certification

Amadeus Altéa DCS Help Desk for Airlines

This course gives a global picture of the Altéa DCS process flows, covering flight creation to post departure. It also explains how airlines help desk agents should support Altéa Customer Management and Flight Management users in solving their daily issues.

On this course you will learn how to:

- _ Investigate most of the common incidents.
- _ Understand the flow of the flight cycle.
- _ Search for information in order to solve or reject an incident.
- _ Navigate the different Altéa solutions to identify missing information or wrong settings.
- _ Follow the procedures to report incidents.

This course cover the following topics:

- _ Incident handling and reporting
- _ Altéa solution system architecture
- _ JFE access issues
- _ Failure to create a flight
- _ Seating management
- _ Baggage management
- _ Device and printing management
- _ Flight history in Altéa DC FM
- _ CM/FM 'link is down' scenarios
- _ First steps of a problem investigation

Amadeus Altéa Inventory Certification

This course fully describes the Amadeus Altéa Inventory solution: schedule, seating, re-accommodation and inventory management.

On this course you will learn how to:

- _ Manage fully automated or guided features to handle schedule creation and publication.
- _ Work with fully automated or guided reaccommodation based on a customer's value and full itinerary.
- _ Create and maintain seat maps used across Altéa Reservation and Departure Control.
- _ Implement advanced inventory-management techniques in order to control airline inventory and calculate availability.

This course covers the following topics:

- _ Amadeus System architecture
- _ Messenger viewer
- _ Markets, flight groups and business rules
- _ Seating: Aircraft library, seat map design, business rules
- _ Schedule: Automatic / manual schedule changes and publication, business rules
- _ Reaccommodation: Automatic and manual reaccommodation, and automatic flight selection
- _ Inventory: Flight date inventory, class controls and business rules

Certification:

Yes - pass mark: 85%

Duration:

7 days

Language:

English

Level:

Certification

Pre-requisite:

No

Prework:

Yes

Is this the course for you?

This course is for:

- _ Airlines in PSS migration.
- _ Airline's operational agents, supervisors, Help desk agents and trainers.
- _ Schedule Managers should attend ['Amadeus Altea Inventory: Schedule Management Certification'](#).
- _ Inventory Managers should attend ['Amadeus Altea Inventory: Inventory Management Certification'](#).
- _ For an overview of how to use Inventory systems, watch the [Altea Inventory awareness e-Learning](#) (6 hours)

Things you need for this course

Prework:

- _ To ensure that you are familiar with the cryptic commands before attending the training, we recommend you complete the following e-learning (45 minutes): [Altea Reservation and Ticketing \(Cryptic\) for Altea Inventory users](#)

This course helps you use

- _ Altéa Inventory and Code Share

Is this the course for you?

This course is for:

Airlines

In particular, those working in:

Help Desk & Support Agents, Operations Managers, Trainers

This course helps you use

- _ Amadeus Customer Service Point

How the course is organised

9 interactive lessons with a duration of 20 minutes.

What equipment do you need?

- _ A computer or tablette.
- _ A high-speed internet connection.

The last few details...

- _ Please note that access to this course is restricted to Amadeus customers.

Amadeus Digital Awards

This course focuses on how to configure Cash to Miles conversion rules through the Amadeus FareXpert filing platform. The conversion rate defined in these rules can feed an airline's online channel (Digital Awards) or the offline channel (ARD Web) or both. It allows frequent travelers to book air travel and settle the price of a ticket either in currency, or in miles, or in a combination of both.

On this course you will learn how to:

- _ Describe the Award Converter and the Miles & Cash slider logic.
- _ Access to the 'Cash to Miles conversion' module in FareXpert.
- _ Create, duplicate, edit a conversion rule for commercial and redemption booking classes.
- _ Create adhoc promotions for selected frequent traveller tier levels in form of discounted mileage redemption (adjustment factors) or more flight availability (matching criteria).
- _ Differentiate the conversion process of fares from the one for Ancillary Services and Taxes.
- _ Create specific conversion rules for Marginal fares.

This course covers the following topics:

- _ Product overview Digital Awards suite (Converter Engine, Award converter and Miles & Cash slider)
- _ How to access FareXpert Cash to Miles conversion module.
- _ How to create cash to miles conversion rules (various use case scenarios).

Certification:
No

Duration:
3 days

Language:
English

Amadeus FareXpert Negotiated Fares

This course explains how to use Negotiated-Fares module of the Amadeus FareXpert filing solution to file negotiated fares and release them to specified Amadeus point of sales (office IDs). Those points of sales can be airline direct or indirect distribution channels. Filing examples allow you to access the solution, practice fare filing, and see the results in a GDS.

On this course you will learn how to:

- _ Create and modify FareXpert based Negotiated Fares.
- _ Use Global Updates to create or modify large volumes of FareXpert based Negotiated Fares.

This course does **NOT** cover:

- _ FareXpert based Voluntary Changes (Cat 31)
- _ FareXpert based Voluntary Refunds (Cat 33)

Filing guidelines (PDF doc) for Cat 31 and 33 will be provided.

This course covers the following topics:

- _ Negotiated Fares Overview.
- _ Create and modify Rule Definitions with net/selling fare only options.
- _ Create and update Vendor Aggregates.
- _ Select a rule and set the Distribution and Ticketing options.
- _ Choose a rule and create Rule Conditions.
- _ Select a rule and set Booking Code Exceptions.
- _ Set up Routings.
- _ Select a rule, routing and set the fares.
- _ Set up and maintain Location Aggregates.
- _ Create, modify and discontinue fares using Global Update.

Certification:

Yes - pass mark: 85%

Duration:

4 days

Language:

English

Level:

Certification

Pre-requisite:

Yes

Prework:

No

Is this the course for you?

This course is for:

- _ Airlines in PSS migration.
- _ Airlines in need to bridge certain gaps of the standard fares filing platform ATPCO.

Things you need for this course

Pre-requisite:

- _ Basic knowledge of fares and fare filing
- _ Basic knowledge of Amadeus PNR creation.

This course helps you use

- _ Amadeus FareXpert

How the course is organised

- _ 4 days of classroom training

The last few details...

Important to note: The Amadeus FareXpert filing solution is a set of applications (modules) which enables real-time filing into the Amadeus database. For productivity and consistency purposes, all applications have been grouped under this solution. Every FareXpert based module addresses a specific filing need and thus targets potentially very different audiences. It is therefore key to clearly identify to which FareXpert module reference is being made. The Amadeus FareXpert Negotiated Fares training course is covering the FareXpert based Negotiated Fares module.

Amadeus Flex Pricer

This course describes how Flex Pricer as a shopping engine fits into airline-direct distribution channels (digital '.com', NDC, Call-Center, Group Management). Main focus during this course is how to access and administer the FareXpert based Airlines Fare Families module.

On this course, you will:

- _ Identify Flex Pricer concepts, terminology, and architecture.
- _ Create Commercial Fare Families (CFF), Markets, and Fare Families (FF) using the Amadeus FareXpert filing platform.
- _ Explain the interdependancies of updates in FareXpert and the administration tool of the front-end application (e.g, Site Manager).

This course covers the following topics:

- _ Flex Pricer specific terminology and architecture.
- _ How to access the Airlines Fare Families module which is based on the Amadeus FareXpert filing platform.
- _ How to create a Commercial Fare Family, markets, and Fare Families.
- _ How to use Location-, Vendor-, and Market Aggregates within FareXpert.
- _ How updates in FareXpert impact the administration tool of the front-end application (e.g.: Site-Manager).
- _ **Note:** The Flex Pricer Shopping engine and/or the FareXpert based Fare Families modules can be used in an airline direct (online) channel, and in other contexts such as: ARD Web, NDC, Amadeus Group Manager (AGM).

Certification:

Amadeus Interface Record for Back Office

Amadeus Interface Record (A.I.R.) for Back Office offers automated real-time transmission of booking data on agent transactions. This course explains how to setup and configure office profiles to generate Amadeus Interface Records that can then be used for accounting and statistical purposes.

On this course you will learn how to:

– Set up an office profile to allow back office accounting activities.

– Utilise the entries to transmit Accounting Interface Records and Information Management Records.

– Customise the contents of A.I.Rs.

– Configure Shadow and Mirror accounting processes.

– Monitor and update the application sub-queue in the Amadeus central system.

This course covers the following topics:

– Office profile maintenance to allow the transmission of accounting and statistical information to back office systems.

– Creating PNR data elements which will be transmitted to the back office system.

– Utilising the A.I.R. customisation tool.

– Shadow and mirror accounting processes.

Certification:

Amadeus Negotiated Space Certification

This course describes how to use Amadeus Negotiated Space to best define blocked space and assign it to preferred travel agents, while retaining full synchronisation with your inventory system. This is an essential feature for your distribution to cruise lines, tour operators and other consolidators.

On this course, you will learn how to:

- _ Set up and maintain points of sale for handling tables and block management.
- _ Define availability and sell options.
- _ Create and maintain Negotiated Space handling table parameters.
- _ Create and modify Negotiated Space blocks.
- _ Retrieve and read the history.
- _ Run dashboards or reports. (optional)
- _ Request access authorisation.

This course covers the following topics:

- _ Creating and maintaining handling records.
- _ Setting up and modifying the Point of Sale.
- _ Creating and modifying Amadeus Negotiated Space blocks.
- _ Reading the history.
- _ Running dashboards or reports. (optional)
- _ Requesting access to the product.
- _ Certification test

- _ Amadeus Office Management (AOM)

This course is also available in

English

What equipment do you need?

- _ A computer, laptop or tablet.
- _ A high-speed internet connection (> 1MB).
- _ The Google Chrome browser or alternatively the Microsoft Edge browser.
- _ An Amadeus login (LSS), organization ID (IATA code) and password.

The last few details...

To get access to AOM, you will need to complete a 2-days instructor-led training and successfully pass the test.

Amadeus Office Management and Security Management Certification for Altéa Airlines

These combined courses demonstrates how to manage office configurations using Amadeus Office Management (AOM) and how to set up user access rights in Amadeus Security Management (ASM). Both products control security access to Altéa products for your airline and partners.

On this course, you will learn how to:

- _ Navigate both products, AOM and ASM.
- _ Configure agency access to Altéa Reservation using secured and controlled environments.
- _ Define the security setup for an airline.
- _ Identify and apply security elements to allow access to Altéa products.
- _ Identify the tasks of the airline administrator.

This course covers the following topics:

In AOM:

- _ Create and setup office IDs and office profiles.
- _ Create reports and templates for massive actions.
- _ Review the user authentication process flow.

In ASM:

- _ Define data within the different applications.
- _ Create and manage roles specific to your organisation.
- _ Allocate and duplicate roles, Access Control Lists, & preferences to consumers according to their job functions.
- _ Remove access rights, offices, & organisational units.
- _ Manage security partnerships between organisations.

Amadeus Revenue Integrity

As an analyst, learn how Revenue Integrity enforces airline booking policy and minimises speculative booking practices and therefore reduces distribution costs from non-productive bookings and maximises available inventory for travellers ready to purchase tickets.

On this course, you will learn:

- _ How to get started with Revenue Integrity Desktop
- _ What are the new Revenue Integrity Desktop changes?
- _ How to use the Revenue Integrity search engine
- _ How to use the rule editor to manage business rules
- _ How to work with Amadeus Time Limits
- _ How to work with Group Time Limits

Through a set of interactive e-Learning lessons, how to manage Amadeus Time Limits (ATL), how Group Time Limits (GTL) processes a group PNR, how to create business rules, and how to read logs using Amadeus Revenue Integrity (ARI).

Certification:
No

Duration:
1 hour + 20 minutes

Language:
English

Level:
Awareness

Pre-requisite:
No

Pework:
No

Is this the course for you?

This course is for:

Airlines

In particular, those working in:

Administrators, Business & Projects Managers, Fare Filing Agents, Help Desk & Support Agents, Inventory / Revenue Managers, Reservation Agents, Ticketing Agents, Trainers

This course helps you use

- _ Amadeus Reservation Desktop Essential
- _ Amadeus Reservation Desktop Web (ARDW)
- _ Amadeus Revenue Integrity

This course is also available in
English

What equipment do you need?

- _ A computer, laptop or tablet.
- _ A high-speed internet connection (> 1MB).
- _ The Google Chrome browser or alternatively the Microsoft Edge browser.
- _ An Amadeus login (LSS), organization ID (IATA code) and password.

Amadeus Sales Auditing Certification and optional modules

This course helps you to understand, configure and operate the Amadeus Sales Auditing module (ASA). This optional Amadeus Revenue Accounting module audits all sales, exchanges, and refund transactions performed by Amadeus, other GDS travel agencies, airline ATO/CTOs or GSA sales agents.

On this course you will learn how to:

- _ Understand and use the ASA module.
- _ Learn how to set up its Amadeus Business Rules to meet your business requirements.
- _ Work on ASA-related tasks.
- _ Work on reports generated by the ASA module.

This course covers the following topics:

- _ Audit of issuance, exchange and refund transactions (Audit of Tickets and EMDs).
- _ Sales Audit Amadeus Business Rules.
- _ Sales Audit tasks and related Agency Memo creation.
- _ Sales Audit reports.
- _ Protation Optimization Tool (optional)
- _ Interline Auditing (optional)

Certification:

Yes - pass mark: 85%

Duration:

3 days + 1 day

- _ An Amadeus login (LSS), organization ID (IATA code) and password.

The last few details...

To get access to ASM, you will need to complete a 4-days instructor-led training and successfully pass the test.

Amadeus Security Management Certification for Altéa Airlines

Amadeus Security Management (ASM) provides authentication, access control and security administration across Amadeus products. This course describes the configuration of user access rights to allow users to work in the primary Altéa applications on the Amadeus Application Launcher.

On this course, you will learn how to:

- _ Navigate through the ASM application.
- _ Define the security setup for an airline.
- _ Identify and apply security elements to allow access to applications

This course covers the following topics:

- _ Organisation and User Management
- _ Reports and templates for massive actions
- _ Reviewing the authentication process flow.
- _ Navigating ASM.
- _ Identifying the tasks of the airline administrator.
- _ Defining data within the different applications.
- _ Creating and managing roles specific to your organisation.
- _ Allocating and duplicating roles, ACLs and preferences to consumers according to their job functions.
- _ Removing access rights, offices and organisational units.
- _ Managing partnerships between organisations.
- _ Deleting roles, offices and organisation units.

Certification:
Yes - pass mark: 85%

Is this the course for you?

This course is for:

Airlines

In particular, those working in:

Administrators, Fare Filing Agents, Help Desk & Support Agents, Reservation Agents, Ticketing Agents, Trainers

Things you need for this course

Pre-requisite:

- _ A basic knowledge of the Amadeus Central System.

Pework:

- _ Some knowledge of ticketing concepts.

This course helps you use

- _ Amadeus Reservation Desktop Essential
- _ Amadeus Reservation Desktop Web (ARDW)

How the course is organised

There are five interactive lessons with a duration of 1 hour.

This course is also available in

English

What equipment do you need?

- _ A computer, laptop or tablet.
- _ A high-speed internet connection (> 1MB).
- _ The Google Chrome browser or alternatively the Microsoft Edge browser.
- _ An Amadeus login (LSS), organization ID (IATA code) and password.

Group bookings in Altéa Reservation Desktop Web (Virtual)

This course explains how to process groups bookings in Altéa Reservation Desktop Web.

On this course, you will learn how to:

- _ Assess the best functionalities to create and manage group bookings.
- _ Use automatic pricing for group booking.
- _ Create a manual TST entry to price the itinerary of a group booking.
- _ Manage payment and issue tickets from a group PNR.

This course covers the following topics:

- _ Create the itinerary for a group PNR.
- _ Manually update passenger names in a group PNR.
- _ Manage seats in a group PNR (assigned and non-assigned).
- _ Import and update a passenger list from a spreadsheet.
- _ Price a group PNR (automatic pricing and manual TST creation).
- _ Issue tickets in a group PNR.

Certification:

The last few details...

To get access to ASM, you will need to complete a 4-days instructor-led training and successfully pass the test.

Origin and Destination Module using Bid Price Vectors

The Amadeus Origin and Destination Module using Bid Price Vectors is a highly sophisticated inventory management option, which offers differentiated availability by taking into account the customer's Origin and Destination (O&D) and other factors that will influence revenue.

On this course, you will gain an overall understanding of the Amadeus Origin and Destination Module using Bid Price Vectors, and its features.

This course covers the following topics:

- _ Introduction to revenue availability (Origin and Destination)
- _ Basic authorisation level controls
- _ Availability calculation - non revenue based
- _ Segment limits
- _ Origin and Destination determination
- _ Managing yields
- _ Significant Origin and Destination
- _ Generic yield rule
- _ Bid price vectors
- _ Single leg
- _ Multiple legs - pseudo bid price vectors
- _ Transient bid price vectors
- _ Availability calculation - revenue based
- _ Marriage control (Messenger and PNR)
- _ Availability simulation

Certification:
No

Awareness

Pre-requisite:
No

Pework:
No

Is this the course for you?

This course is for:

- _ Agents performing ground handling activities at the airport.

This course helps you use

- _ Altéa Departure Control - Customer Management (CM)
- _ Altéa Departure Control - Flight Management (FM)
- _ Amadeus Application Launcher

How the course is organised

There is one interactive lesson with a duration of 5 minutes.

This course is also available in

English

What equipment do you need?

- _ A computer, laptop or tablet.
- _ A high-speed internet connection (> 1MB).
- _ The Google Chrome browser or alternatively the Microsoft Edge browser.
- _ An Amadeus login (LSS), organization ID (IATA code) and password.

Ticketing Configuration Manager

As a ticketing manager, learn how to regulate and control your ticketing agreements and conditions using a graphical interface.

On this course, you will learn:

- _ What is TCM?
- _ What is the Online application?
- _ How to identify an airline's preferences for e-ticket display options.
- _ How to allow or restrict issuance of infant tickets.
- _ How to allow or disallow mandatory FOID at time of issuance.
- _ What is the Interline sub-application?
- _ How to identify the interline agreements between a validating carrier and an interline partner.
- _ How to identify an airline's distribution conditions for specific GDS and countries.

Through a set of interactive e-Learning videos learn what is TCM and what are TCM's sub-applications, how to identify rule types, how to modify rule conditions and how to modify interline ticketing agreements using Ticketing Configuration Manager (TCM).

Training techniques for airline trainers

In this course Amadeus trainers will equip you with the right techniques to deliver efficient and engaging functional training by using hands-on practice activities and real-time delivery exercises.

In this course you will learn how to:

- _ Share the Amadeus Trainer's values.
- _ Find your inner trainer.
- _ Take care of your participants.
- _ Create effective training materials.

This course covers the following topics:

- _ Becoming a company Ambassador.
- _ Examine the techniques of a trainer.
- _ Deal with a challenging situation and behaviour (classroom and virtual).
- _ Design an efficient evaluation system.
- _ Learn how to give and receive feedback.
- _ Analyse adults' methods of learning.
- _ Identify the profiles of different participants.
- _ Learn how to prepare your training delivery.
- _ Learn how to create and maintain effective tutor guide and exercise books.
- _ Identify the types of engaging hand outs that can be shared with participants.
- _ Discover the Knowledge Management Ecosystem (video).
