

Instructor-Led

Amadeus Altéa Inventory - Schedules & Reaccommodation Certification

This course explains how to use the Amadeus Altéa Inventory solution for schedule management and re-accommodation. You will practice using hands-on exercises leading to a certification test.

On this course, you will learn how to:

- > Manage automated and guided features used for the creation, modification, and publication of regular flights.
- > Set up automated and guided reaccommodation processes effectively.

This course covers the following topics:

- > Altéa system architecture
- > Navigation of the product's UI and menus
- > Messenger viewer
- > Markets, flight groups and business rules
- > Mandatory Schedule business rules
- > Flight creation, modification, and publication
- > Reaccommodation processing: automatic and manual, using baseline features, and Automatic Flight Selection
