

e-Learning

Amadeus Messaging Server

As a system administrator, discover how Amadeus helps you subscribe, categorise and sort Altéa server messages based on job roles in your airline.

In this course, you will learn:

- > How to work with Messenger.
- > What the role of the Messenger Administrator is.
- > How to create dispatching rules.
- > How to subscribe users to a category.

Through a set of interactive e-learning lessons, learn how **Amadeus Messaging Server** identifies the types of messages received from Altéa Inventory servers, defines the difference between actionable and informational messages, defines criteria in a message, subscribes a user to a message category, and creates dispatching rules.

Certification:
No
