

Instructor-Led

Amadeus Revenue Accounting - Interline Auditing

This course explains how to operate Interline Auditing Tool. This module, part of Amadeus Revenue Accounting, enables the operating carrier to audit the fare collected by the validating carrier, and to decide which fare (e.g., Lowest Applicable Fare) will be used to bill the validating carrier.

On this course you will learn how to:

- > Determine whether the fares collected by the validating carrier are accurate.
- > Provide the fare elements of the lowest applicable fare for proration and outward billing in case the collected amount was inaccurate.
